

# Climate Control

## Solid State Climate Controlled Compartments

The Temploxx family of products provide temperature controlled compartments that actually work.

### Reliable Control

Temploxx utilizes a solid state TEC style heat exchanger that provides fully automatic heat/cool HVAC for any size compartment\*.

The system includes all solid-state controls with no relays, CFCs or coolant charging necessary.

### Fully Custom

Temploxx compartment can be fully customized to fit any size or shape in your vehicle or storage cabinet. You can purchase the components to integrate yourself or a completed unit ready to slip into your space or integrate into your vehicle.

### Green Technology

Temploxx products use no CFCs or refrigerant and require no charging or maintenance. TEC technology is fully solid-state and has no compressors or pumps to fail.

### Precise Temperature Control

Controls temperature inside a compartment (up to 6 cu ft\*) for medication or sensitive electronics storage.

### Compatible Power

Runs from native 12VDC making it fully compatible with automotive applications.

### Fully Automatic

Temploxx includes a solid-state controller that will heat or cool your compartment automatically.

### No Compressor or CFCs

Utilizes TEC technology for reliable heat exchange with no moving parts.

# Technical Specs & Options

## Thermal Specifications

Operating Range ..... 20° to 115° F  
Maximum Delta-T ..... 40° F  
Performance ..... 170-200 BTU/hr  
Control ..... Fully Digital  
Efficiency (Compt) ..... 8-12 R-Value  
Thermal Deviation ..... 5° F

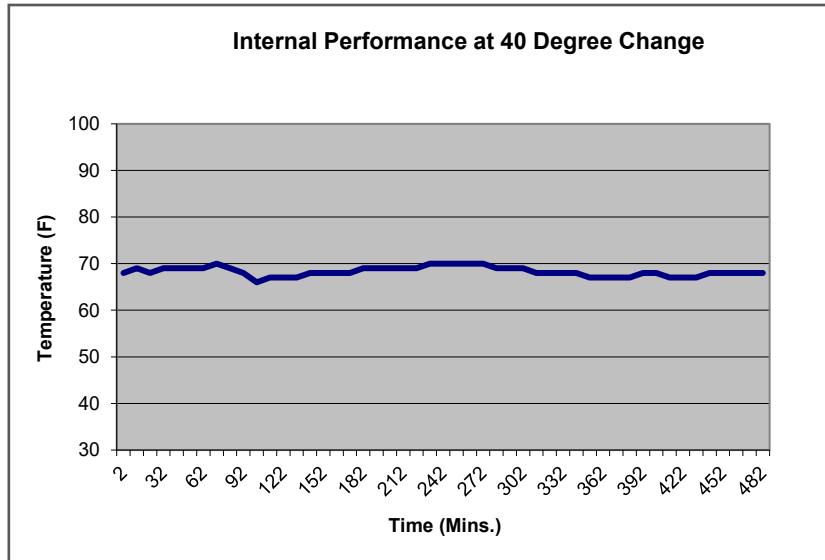

## Electrical Specifications

Operating Voltage ..... 11-14V DC  
Running Current ..... 7.2A  
Standby Current ..... <0.1A  
Wattage of Unit ..... 50W  
Average Amp/Hr ..... 3.0A

## Physical Specifications

Weight ..... 6.5lbs\*  
Size ..... 5.5" x 10" \*  
Noise ..... 22dB  
Enclosure ..... Nema-12  
Maximum Compartment ..... 6cu FT

\*TEC Heat-pump Dimensions

## Access Control Options

Templex offers a wide range of CompX eLock options from their 300 series line. Contact us for more details and options.

## Ordering Information

Heat-pump & Controller Kit (only) ..... TEC50W-K  
Stand Alone Unit ..... TEC6CUF  
Self Trimming (Ambulance) Unit ..... TEC6CUF-ST  
CompX 300 Series eLock ..... CX300EL  
CompX 300 Series eLock w/ WiFi ..... CX300ELW
